

Metric and Special Size O-Rings

Why pay for tooling?

Lutz has over 13,000 different special and metric sized molds available to produce sizes ranging from .013" inside diameter up to over 37" inside diameter. We can retrofit most international components using international standards from Germany, France, Sweden, Britain and Japan.

100% video inspection is available to ensure extreme accuracy and near zero defective product. PPAP's can be provided with Cpk studies from our electronic measuring equipment to meet automotive requirements.

Send us your inquiry for competitive pricing at metric@lutzsales.com
or fax us at 800-371-0630.

Visit our website at www.lutzsales.com for a free tooling list.
